SUMMER 2024

SURVIVOR

Our summer camp brings in our daily survivor challenges. Campers are broken into teams at the beginning of the week and each day participate in different challenges towards points for their teams. Challenges include everything from water obstacles to brain challenges.

Oval Games

Campers will have a blast playing traditional oval games. Capture the flag, red rover, tip, stuck in the mud, and so many more. A throwback to years gone by when all that mattered was enjoying the sun on your face and feeling the grass beneath your feet.

Cricket

Australian Summers call for the classic game of Cricket. The beauty of Cricket is that everyone can get involved, no matter their skillset or ability.

9-Square

Best. Game. Ever! A Camp Blue favourite, this is the ultimate group game for all sizes and abilities. Fast moving and a good way to test the reflexes.

Street Dance

Drawing on a variety of dance styles developed over the years outside a studio, Street Dance is a powerful form of non-verbal communication that encourages self-expression in people of all ages. In the camp environment, creative movement gets Campers active and helps them express themselves without barriers.

Soccer

Who is ready to be the next Sam Kerr or Lionel Messi? Let's get your skills ready to WOW your opponents.

Art

Art projects for Summer Camp will include the old favourite Tie Die and so much more.

Theatre Sports

Campers will engage in the art of improv and learning the skills it takes to compete in the Theatre Sports competitions.

Glee

Campers work together as a group while putting their acting, dancing and singing skills to the test, creating a music video to a song or mix of songs of their choice.

Makerspace

Camp Blue Makerspace is an environment where Campers can explore their own interests and learn to use various tools and materials to develop creative solutions to help in their everyday lives. Unstructured by design, to harness a mindset of community, creativity and collaboration.

CREATIVE

SPECIAL INTEREST

Curiosity Lab

This is your chance to turn into a mad scientist while doing some fun experiments to explore why the world works the way it does. There is no success without failure but the hard work will pay off with some surprising results!

Board Games & Chess

A range of modern and classic board games and chess will be out on the tables to learn, master and use to challenge your friends. If you want an activity that is fun and full of strategy but a little more relaxed physically, then this is for you.
